Full stack web developer with a background in culinary arts. My culinary career instilled in me a strong work ethic, attention to detail, and the ability to thrive in high-pressure environments - qualities that I now apply to my work as a web developer. Today, I am eager to create user-friendly, visually appealing websites and web applications. I am excited to collaborate with forward-thinking individuals and organizations.

Technical Skills

- **Programming Languages:** Html, CSS, JavaScript, MySQL, NoSQL
- **Libraries and Technologies:** React, JQuery, Node.js, Git, GitHub, Express.js
- **Additional Skills:** MERN Stack, PWA builds, Object-Oriented Programming, Responsive Design, Code Refactoring, Agile methodology, Team Building

Education

- *Technology & Leadership Center James Mckelvy School of Engineering at Washington University: Full Stack Web Development Certificate*
